Care of Wood

Clean all surfaces frequently with water-dampened soft cloth, moving the cloth with the grain direction. Quickly buff dry. Immediately remove any liquids that come in contact with wood surfaces using a blotting action to absorb liquid. Lift objects to move them. Never pull them across the finished surface.

Avoid exposing furniture to extreme heat and cold or to wide humidity variances. Avoid exposing furniture to strong sunlight. Do not use soaps, commercial cleaners or harsh solvents (nail polish remover, acetates, etc.) as they will cause finish deterioration.

Care of Upholstery Surfaces

For Versteel standard fabrics and vinyls, consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Care of Powder Coat

Clean with a mild soap solution and rinse with clean, clear water. Wipe the entire surface and follow with a clean, dry cloth to buff dry.

Metal Processing

Studio Steel® is Versteel's "urban fabrication" process which leaves the telltale signs of welding and assembly on the surface, highlighting a manufacturing aesthetic. Choosing a clear or transparent powder coat is recommended, allowing tonal striations (created as a result of extreme heat), natural textures, and the inherent qualities of raw steel to show through.

Powder Coat Finishes

All powder coat finishes in the Versteel offering have been formulated with the use of epoxy, polyester or epoxy and polyester blends to maximize the finish durability.
